RESEARCH

DoM Seed Grants for Innovative Research

- *Purpose:* to encourage the exploration of novel ideas, higher-risk or potentially transformative projects, and emerging areas.
 - *Funding:* two \$50,000 one-year research grants, starting 12/1/12.
 - *Eligibility:* lead PI must be DoM faculty member.
 - *Topics:* Novel, unfunded projects in basic, translational, or clinical biomedical research.
 - Received 18 applications by the Sept 10 deadline.
 - *Selection Process:* *ad hoc* committee of impartial experts will choose winning applications over the course of the next month.
-

DoM Grant Writing Assistance Program

- *Purpose:* help grant writers improve their “grantsmanship”, focusing on writing and presentation.
 - *Rationale:* for a relatively small departmental investment, we should be able to improve the grant hit rate.
 - *Eligibility:* all DoM faculty submitting federal or foundation grant as lead PI.
 - *Funding:* \$50,000 has been allocated; pilot stage will end when money is spent; program extension will depend on its efficacy.
 - *How it works:* PI will work with a grant-writing consultant over the course of several weeks to improve the quality of the grant through discussion, editing, and re-writing. DoM will pay up to \$2250/PI, which will fund approximately 15 consultant hours.
